Interactivity

- See film strip by temporality
- Click on highlighted entries
- Interact with key words of highlighted entries
- Visit full entries
- Can access archive with all entries (not shown)

Data Mapping

film strip view
for each temporality,
return the img src of each item

curated gallery view

sort entries by number of visits for
matching summary or full entry, in
descending order, populate as divs with
images

callouts: summary and full entry view

- Image: src
- Date: dt
- Weather: weather
- Keywords: search list of descending
most often used words in database; match
entry words against and assign font-size
based on appropriate ratio

Assumptions

- Interactor is interested in reflecting
on time spent in each temporality
- Visitor comes back to the application
and would like actions to be recorded
into some kind of memory
- Visitor wants to reflect on their
perception of their days visually and
textually

DOCUMENTATION

Interactivity

- Sensor is personified into interactive character
- Ask Higgy questions about sentimentality acts recorded

Data Mapping

vitals

- Born: earliest entry date
- Online for: most recent entry date - earliest entry date
- Sentimental acts recorded: # of entries recorded where value > 11

Week data heat map

- Aggregate data into days and times
- Assign colors based on summary values
 - 25th percentile
 - 50th percentile
 - 75th percentile
 - 100th percentile

Month data line chart

- Aggregate data by month
- line: d.month, d.count

Assumptions

- Interactor wants to know how old the dataset is and how much data information is based on
- Visitor wants to know sentimental trends by day in context of a week
- Visitor wants to know sentimental trends over the year by month

SENTIMENTAL HIGGY

Hi! I'm Higgy.

I record the sentimentality of your household, based on how often you visit sentimental objects such as old cards, photos, gifts and knick-knacks.

Ask me:

- When do I get most sentimental during the week?
- When do I get the most sentimental during the year?

How sentimental am I compared to my partner?
How sentimental am I compared to others?
How sentimental is my household compared to others?

VITALS

BORN ON: NOVEMBER 20, 2018
ONLINE FOR: 20 DAYS 11 HOURS
SENTIMENTAL ACTS RECORDED: 45

You are most sentimental after the sun goes down, mostly on Wednesdays and Saturdays

On average, you are 20% more sentimental in the winter than in the summer months
